- Languages: Java, JavaScript
- Others: RESTful API, UML, Agile Scrum

## LANGUAGES:

Arabic (Native),  
English (Fluent),  
French (Intermediate)

## PROFESSIONAL EXPERIENCE

### Full-Stack Developer: JEE/React.js

Certifia, Rabat, Morocco

February 2023 - Present

- Developed and maintained enterprise-level web applications using Jakarta EE and Spring frameworks.
- Created RESTful web services using JAX-R API.
- Implemented front-end features using React and JavaScript libraries, resulting in user-friendly and responsive interfaces.
- Conducted unit testing and ensured high code quality through Jest, JUnit, and Mockito.
- Followed Agile Scrum methodology, collaborating with cross-functional teams to meet project milestones.
- Implemented Continuous Integration and Continuous Deployment (CI/CD) pipelines using Jenkins for automated build and deployment processes.

## PROJECTS

### "Dari" - Real Estate Web Application (Ongoing)

- Built a modern real estate web app inspired by Zillow using React.js for frontend and Jakarta EE, RESTful API, MySQL for backend.
- Implemented user authentication, property search, and listing functionalities.
- Collaborated with cross-functional team using Agile methodologies.
- Technologies Used: React.js, Jakarta EE, RESTful API, MySQL, Agile Scrum.

### Financial Analysis Dashboard

- Developed a Java EE-based web app for financial data analysis.
- Implemented three-tier architecture: DAO using Spring Data, business logic, and MVC-based web layer using Thymeleaf.
- Ensured data security through Spring Security.
