

# OUSAMA LASRI

## Full-Stack Web Dev

As a web developer specialized in the MERN stack and Java JEE, I possess a strong foundation in React, Node.js, MongoDB, and Java JEE frameworks. Additionally, I am an enthusiastic learner who embraces new technologies and stays updated with the latest industry trends. I firmly believe in the power of teamwork and collaboration, as I thrive in dynamic environments where collective efforts lead to the creation of exceptional web applications.

## WORK EXPERIENCE

### WEB DEVELOPER

2022 - 2023

Warner & Spencer

- Worked with product managers to re-architect a multi-page web app into a single page web-app.
- Tested software for bugs and operating speed, fixing bugs and documenting processes to increase efficiency by 12%.
- Iterated platform for college admissions, collaborating with a group of 4 engineers to create features across the software.

### WEB DEVELOPER

2021 - 2022

Wardiere Inc.

- Built RESTful APIs that served data to the JavaScript front-end based on dynamically chosen user inputs that handled over 500,000 concurrent users.

### JUNIOR WEB DEVELOPER

2021 - 2022

Larana, Inc.

- Partnered with a developer to implement RESTful APIs in Django, enabling analytics team to increase reporting speed by 20%.

## PROJECT

### COVID-19 Tracker App

- The project displays COVID-19 daily statistics, including deaths, recoveries, and vaccinations, in user-friendly charts.
- It offers interactive features like zooming for detailed data analysis

### Weather app

- I have developed a weather application using React, where real-time weather data is fetched from an API and dynamically rendered on the user interface.
- This project showcases my ability to integrate APIs, handle data retrieval, and create an intuitive user experience for displaying weather information.

### Portfolio

I have developed two portfolio projects showcasing my versatility as a web developer.

- The first version utilized HTML, vanilla JavaScript, and Node.js for interactive UI, UI libraries integration, and backend functionalities.

## EXPERTISE

- Full Stack Development  
(MERN & JAVA JEE).
- Database Design.
- HTML/ CSS/ SCSS/ CSS  
modules.
- RESTful API.
- Git & Github.
- Testing & Debugging.
- Problem-solving.
- Troubleshooting.
- Agile

## PORTFOLIO

<https://ou5ama.github.io/portfolio/>

I have developed two portfolio projects showcasing my versatility as a web developer.

- The first version utilized HTML, vanilla JavaScript, and Node.js for interactive UI, UI libraries integration, and backend functionalities.
- In the second version, I employed ReactJS, modular components, UI libraries, and Node.js for a scalable and interactive user experience. These projects demonstrate my adaptability and proficiency in different web development approaches and tools.

---

## EDUCATION

Ma. IFPS, Morocco, Rabat 2021 - 2022

Professional Master in Design Engineering and Application Development
